Human Resource Development Policies for Entrepreneurship Development
in Small Scale Enterprise - Do They Meet National Needs?
The new edition of this compact text continues to serve as an essential guide to students and entrepreneurs for establishing a new venture. The book shows the reader, in an easy to understand style, how to mobilize resources, how to tap market opportunities, how to conduct feasibility studies, and how to promote new ventures. Besides, the book discusses in detail the various techniques of product and process development and the method of product pricing. The book is intended primarily as a text for undergraduate students of commerce and undergraduate and postgraduate students of management. It would equally be useful for students pursuing diploma courses in entrepreneurial development. In addition, the book should prove extremely valuable and handy to anyone who wishes to launch his career as an entrepreneur. New To This Edition
• One exclusive chapter (Chapter 10) on Business Location and its importance.
• New sections added in Chapter 1.
• Salient Features
• Provides study questions at the end of each chapter.
• Gives in, Appendices, detailed information on venture capital funds, offices of Small Industries Services Institute (SISI) as well as patent offices, trademark offices, etc., in various states.
• Acquaints the reader with global organizations, e.g. World Trade Organization (WTO) and World Intellectual Property Organization (WIPO).
Describes the assistance that can be had in various countries by those who want to start and own a small business. With reference to development of small businesses in the state of Karnataka, India. This book deals with the development of small scale enterprises in general and entrepreneurship development among small enterprises in particular in a backward district of the country viz., Nellore. The book also focuses primarily, inter alia, on the role of promotional institutions in the development of small scale enterprises and managerial abilities of small entrepreneurs vis-a-vis the perennial problems faced by them. Some features like perceptional analysis of the role and performance of Andhra Pradesh State Financial Corporation for the development of small enterprises leading to entrepreneurial orientation, find prominent place in the book. Further, the analysis of the development of small enterprises and role of State Financial Corporation in different dimensions by itself enriches the content of the subject matter. Problems of small scale enterprises covering such aspects as finance, skilled employment, marketing, power supply and availability of scarce raw materials are dealt with from a managerial perspective. The whole exercise is an attempt to fill to a great extent, the existing gap in the knowledge base of the subject matter. The increasing numbers of college and university graduates from Africa’s tertiary institutions and the declining prospects for jobs in the public and private sector have reinforced the importance of creating avenues for self-employment. But job creation exposes a serious gap in education policies, for basic skills in entrepreneurship are not taught in most tertiary curricula across the continent. This nineteen-chapter volume provides essential course text material for developing the field of entrepreneurship in tertiary institutions, thus addressing the issue of appropriate pedagogy critical for the emerging field of entrepreneurship development in higher education institutions in Africa. Drawing from Nigeria, West Africa and other parts of the developing world, the volume furnishes much needed empirical information to fashion out appropriate policies and projects within macroeconomic framework to nurture small and medium enterprises as a development tool. The vibrancy of an economy depends on the constant flow of entrepreneurs who can take up challenges in business and industry. An entrepreneur is one of the important segments of economic growth. Schumpeter observes that economic development consists of employing resources in a different way in doing a new combination of means of production. He contends that economic growth depends on the rate of applied technical progress i.e. innovation rate of applied technical progress in the economic field which in turn depends on supply of entrepreneurs in society. Thus entrepreneur becomes the agent of change in society[1]. Entrepreneur's motivations & aspirations are conducive to development. Entrepreneurial competence makes all the difference in the rate of economic growth. A broad based entrepreneurial class in India is a felt need and such an entrepreneurial class would speed up the process of activating the factors of production leading to a higher rate of economic growth. Dispersion of economic activities, development of backward & rural tribal areas, creation of employment opportunities, improvement in the standard of living of the weaker sections of the society and involvement of all sections of the society in the process of growth[2]. An entrepreneur plays a critical role in the process of socioeconomic change by envisaging new opportunities new techniques, new products & by coordinating all other activities. This Book Presents A Lucid Treatment Of A Wide Range Of Issues Involved In The Development Of Entrepreneurship. It Presents An Insight Into The Identification Of Business Opportunities, Creating A Venture And Financing And Managing It. The Book Further Explains The Choice Of Technology And Equipment, Man, Machine And Materials Management, Pert And Cpm And Quality Assurance. The Book Highlights The Various Legal Provisions Relevant To Entrepreneurship And Concludes With A Chapter On Social Responsibility And Business
Ethics. With Its Wide Coverage And Step-By-Step Approach, The Book Would Serve As An Ideal Text For Various Undergraduate Courses On The Subject Including B. Com., B.A. And B.Sc. (Vocational), Bio-Technology, Bhm, Mba And To The Entrepreneurs.In the present economic scenario, entrepreneurial development has assumed increased significance because the objective of industrial development, regional growth, and employment generation depend greatly on it. In fact, entrepreneurial development is a key to economic development. Similarly, small-scale industries and small business enterprises today constitute a very important segment in the Indian economy, and are also closely linked to entrepreneurial and economic development. However, the process of liberalization and economic reforms since 1991, though creating tremendous opportunities for the growth of entrepreneurship and SSIs, have thrown up new challenges of building competitive strengths, introducing technology upgradation and quality improvement, and increasing productivity. Entrepreneurship Development and Small Business Enterprises: For Chaudhary Charan Singh University examines these issues and offers valuable input and insight to students of this subject. Enriched by the author's rich experience in both industry and teaching, it successfully reduces the gap between practical industry experiences and theoretical institutional studies by giving real and practical examples. This book presents a number of cases - both in centrally planned and market economy systems - where the culture and practice of entrepreneurship were successfully introduced into the structure and activities of public enterprises. The book shows how sponsorship can help promote both public and private economic initiatives by either turning the public enterprise into an entrepreneurial and intrapreneural organization, or by helping small private businesses in the start-up stage. The process of liberalization and economic reforms since 1991 besides creating tremendous opportunities for the growth of entrepreneurship and SSIs has also thrown up new challenges of building competitive strengths, introducing technology upgradation and quality improvement, and increasing productivity. Entrepreneurship Development and Small Business Enterprises examines these issues and offers valuable insight to students of this subject. It successfully reduces the gap between practical industry experiences and theoretical institutional studies by giving real and practical examples. This book presents a wide range of issues involved in entrepreneurship and small industry. The book has 12 chapters divided in two parts. Part A: Entrepreneurship Consisting of Concept of Entrepreneurship, Entrepreneur, Entrepreneurial Competency and Development of Entrepreneurial Competency. Part B: Small Business: Consisting of Introduction to Small Scale Industries, Enterprise Creation, Business Plan, Support Agencies for Implementation of the Project and Sickness in Small Scale Industries. This book will serve as a textbook for various courses like B.Com. B.B.M. B.E. M.B.A. of all Indian universities. Key Features: * Charts are provided for easy understanding of the concepts. * Proforms * Profiles of Successful Entrepreneurs * Questionnaires * Skill Development Exercises * Exercises for self-evaluation and objective type and application type questions.For achieving sustained industrial development, regional growth, and employment generation have always depended on entrepreneurial development. Start-up India is a flagship initiative of the Government of India, intended to build a strong eco-system for nurturing innovation and Start-ups in the country which will drive sustainable economic growth and generate large scale employment opportunities. Young Indians today have the conviction to venture out on their own and a conducive ecosystem lets them watch their ideas come to life. The Government through this initiative aims to empower Start-ups to grow through innovation and design. The Government of India has taken various measures to improve the ease of doing business and is also building an exciting and enabling environment for these Start-ups, with the launch of the "Start-up India" movement. In today's environment we have more Start-ups and entrepreneurs than ever before, and the movement is at the cusp of a revolution. However, many Start-ups do not reach their potential due to limited guidance and access. This book would be useful for start-ups and entrepreneurs, as it gives insights into identifying opportunities, creating and launching ventures, funding and managing the venture. With reference to Marathwada region. In Indian context; with special reference to Jammu and Kashmir, India. This Book Deals With Some Aspects Of Development Of Small Industries In General And Entrepreneurship Development In Particular In A Backward State Of The Country Namely Orissa. The Focus Is Primarily, Inter-Alia, On Entrepreneurship Development In Small Scale Industries; Role Of Promotional Institutions In The Development Of Small Industries And Managerial Abilities Of Small Entrepreneurs Vis-À-Vis The Perennial Problems Faced By The Sector. Some Features Like Perceptual Analysis Of The Role-Performance Of Promotional Institutions For The Development Of Small Scale Sector; Tracing Factors Leading To Entrepreneurial Orientation; And Institutional Finance And Small Industry Development Are Pioneers In Their Attempt.Furthermore, An Analysis Of The Development Of Entrepreneurship From a Historical Perspective By Itself, Enriches The Content Of The Subject-Matter. Problems Typical Of Small Scale Industries Covering The Areas Such As Labour, Finance, Marketing And Raw Material Are Dealt With From A Managerial Perspective. The Whole Exercise Is An Attempt To Fill To Great Extent, The Existing Gap In The Knowledge Base Of The Subject Matter.Contributed articles presented earlier at a seminar. It Is Believed That The Book Will Be Of Interest And Use For The People Engaged In Promoting Entrepreneurship In General And Particularly Among Women, Trainers And Teachers In The Field Of Edp And The Students Pursuing Courses In Entrepreneurship Development. The Book In A Word Describes The Course Of Action One May Have To Take In Promoting Entrepreneurship The course entitled 'Entrepreneurship Development and Communication Skills' has been introduced in the course curriculum of agricultural universities in India on the recommendation of Fourth Deans Committee. The book contains important aspects of Entrepreneurship Development and required communication skills leading to building the required capability of entrepreneurs in the learner. This book is planned to serve as a textbook at undergraduate level for students of agriculture and allied subjects such as horticulture, home science, animal sciences, etc. This could also be used as reference book by students at postgraduate level in agricultural universities in particular and non-agricultural universities in general. Further, it may act as a guide to functional entrepreneurs to inculcate in them the good qualities required for successful entrepreneurship. An exploration of women's participation in small- and micro-enterprise activities in less developed countries. Topics covered include: the human economy of microentrepreneurs; and the Swedish International Development Authority's support of women's small-scale enterprises in Tanzania. This book is useful for B.Com., M.Com., and MBA students of all Indian Universities. Presentation of various aspects of entrepreneurship is the most
salient features of this book. Clarity of all topics has been given throughout. Description of the most difficult topics, in a simple and easy to follow style, has been the authors main attempt. At the end of the each chapter Assessment Questions are included in this book. Glossary, Bibliography, Author Index, Subject Index and Abbreviations are incorporated at the end of the book. Women’s role in enterprise development is now acknowledged as crucial, and a sense of urgency seems to beset all practitioners in the field. This book presents the complexity of women’s situations in micro- and small-scale enterprises, and the importance of the issues being addressed, through the bringing together of contributions from practitioners and researchers. It provides a detailed analysis of current knowledge, and guidelines towards improved practice. Study conducted at Nellore District of Andhra Pradesh, India. An entrepreneur is one of the important segments of economic growth as well as social growth. Basically, an entrepreneur is a person who is responsible for setting up a business or an enterprise in a society for social growth. In fact, he is one who has the initiative, skill for innovation and who looks for high achievements. He is a catalytic agent of change and works for the good of the society. According to Peter F. Ducker “Effective entrepreneurship is not making speeches or being liked; entrepreneurship is defined by results, not attributes.” That means he puts up new Greenfield projects that actually creates wealth, opens up employment opportunities and fosters other sectors. An entrepreneur is one of the most important inputs in the economic development of a country or regions within the country. Entrepreneurship development is getting a position of great importance for tackling ever-growing problem of unemployment due to rapid population growth.
